MANTELL'S GONE BACK, WHILE WILLIE MEEHAN LOOKS LIKE BRIGHT NEW STAR

Frank Mantell and Willie Meehan.

Willie Meehan, the San Francisco middleweight, outroughed and out-slugged Frank Mantell of Providence all over the Oakland ring and was awarded the decision in the tenth round. Mantell seems to have gone back while Meehan promises to develop into a bright new star.

ANTI-TUBERCULOSIS CAR WILL BE RUN

Through This State Even to
the Remotest Points in
the Campaign.

BALTIMORE, Md., Aug. 15.—A vigorous campaign against the spread of tuberculosis is being planned by the health authorities of West Virginia and will be extended to the entire state.

The anti-tuberculosis exhibit car which was fitted up by the Baltimore and Ohio railroad some time ago for the use of the health departments of the states through which its lines operate, has been sent to West Virginia and will be used in a state-wide campaign which will be conducted against the white plague. The car is fitted up for displaying charts and other exhibits which show the progress of tuberculosis, its causes and eradi-

cation; and the interior of the car is arranged for lectures by physicians in charge of the work for the health department.

The car will be used to open the West Virginia campaign at Wheeling. It will be in charge of Dr. Harriet Jones and other physicians appointed by the health authorities. After the lectures are concluded at Wheeling, the car will be taken on a tour of the Baltimore and Ohio lines in West Virginia, even to the remotest sections of the state where the people have been deprived of the opportunity to familiarize themselves with the modern methods of combating the disease. A large and powerful graphophone is a part of the car's equipment and will be used in delivering lectures for the benefit of persons unable to visit the car. The graphophone carries the sound of the human voice a mile.

It was at the instance of the Maryland Society for the Prevention and Relief of Tuberculosis that the exhibit car was fitted up and under the auspices of the society every county in Maryland was visited and a great deal of good resulted from the educational campaign. The first lectures were delivered to the employees of the Baltimore and Ohio railroad in the Mount Clare shops, where the car was built, after which it visited other terminals in Maryland and was later placed on exhibition in Baltimore during the Anti-tuberculosis Congress. It was visited by the American and foreign delegates, as well as by the governor of Maryland, mayor of Baltimore and other state and municipal authorities. After the close of the congress the state-wide campaign was begun.

The anti-tuberculosis exhibit car is enameled in white both inside and outside and bears the name of the state through which it is being operated. Before being taken to West Virginia the name of the West Virginia Anti-Tuberculosis League was lettered on the exterior of the car, which also contains the emblem of the Red Cross Society.

Other states have applied to the Baltimore and Ohio management for permission to use the car, and these requests will be complied with at the close of the trip through West Virginia.

Another important step in the campaign against tuberculosis in West Virginia is the erection of a thoroughly modern sanitarium for victims of the disease. The sanitarium is being erected in the mountains of Hopewell, on the main line of the Baltimore and Ohio. Hopewell is just across the state line and is a few miles west of Oakland.
